Light rain	Light rain	Cloudy	Light rain	Heavy Rain	Fog
Precipitation probability					
80%	60%	20%	80%	80%	20%

Forecast for Monday 01 Jul 2024

Weather: Cloudy to start with outbreaks of rain. Becoming somewhat drier and brighter, with some brief brighter spells possible for a time late morning but turning overcast once again into the afternoon and evening with more persistent outbreaks of rain to end the day. Fresh westerly winds.

Chance of cloud-free hill tops above 800m: 10% to start, briefly improving to perhaps 50% later morning before reducing back to 5-10% during the afternoon and evening.

Low Cloud and visibility: Cloud base widely 400-500m at times through the morning, especially in any rain, but cloud briefly lifting and breaking above all but the highest summits for a time late morning. Cloud bases then lowering from the west into the afternoon to once again cover tops above around 400-500m, and locally some lower slopes in the west in association with rain and drizzle. Visibility will be poor at times, especially in low cloud, rain and drizzle. Otherwise, generally good at lower levels.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Care should be taken if heading out on the high hills with conditions and visibilities likely to go downhill into the afternoon and evening as low cloud and outbreaks of rain return, and feeling noticeably cooler at height. Some moderate to high levels of UV remain possible during any bright spells.

Forecast for Tuesday 02 Jul 2024

Weather: Mostly cloudy with a few isolated showers, any sunny spell remaining very elusive. Feeling cooler than Monday.

Maximum wind: Northwest 15-20 mph with gusts 25-30 mph.

Chance of cloud-free hill tops above 800m: 60-70% in the north of the park, 90-95% in the south.

Low Cloud and visibility: Generally good in the south but occasionally mediocre in and around any showers in the north, with cloud base fluctuating between 600-700m.

Temperature: **Valleys:** Plus 09 Celsius rising to plus 15 Celsius.
At 800m: Plus 07 Celsius.
Freezing level: Above summits.
